# LIST OF CONTENTS

*Vol. 23, No. 1*

## ECDYSONE: FROM BIOSYNTHESIS TO REGULATION OF GENE EXPRESSION

| | | |
|---|---|---|
| **Huw H. Rees** | 1 | Foreword |
| **Peter Cherbas** | 3 | The *IVth Karlson Lecture*: ecdysone-responsive genes |
| **M. L. Grieneisen, J. T. Warren and L. I. Gilbert** | 13 | Early steps in ecdysteroid biosynthesis: evidence for the involvement of cytochrome P-450 enzymes |
| **Dale B. Gelman, Belgaum S. Thyagaraja and Robert A. Bell** | 25 | Ecdysiotropic activity in the Lepidopteran hindgut—an update |
| **Małgorzata Muszyńska-Pytel, Renata Trzcińska, Marc Aubry, Maciej A. Pszczółkowski and Bronisław Cymborowski** | 33 | Regulation of prothoracic gland activity in diapausing larvae of the wax moth, *Galleria mellonella* L. (Lepidoptera) |
| **Ian S. Sloman and Stuart E. Reynolds** | 43 | Inhibition of ecdysteroid secretion from *Manduca* prothoracic glands *in vitro* by destruxins—cyclic depsipeptide toxins from the insect pathogenic fungus *Metarhizium anisopliae* |
| **Katrine Meurant and Conrad Sernia** | 47 | The ultrastructure of the prothoracic gland/corpus allatum/corpus cardiacum ring complex of the Australian sheep blowfly larva *Lucilia cuprina* (Wied.) (Insecta:Diptera) |
| **Detlef Böcking, Chantal Dauphin-Villemant, Dietrich Sedlmeier, Catherine Blais and René Lafont** | 57 | Ecdysteroid biosynthesis in moulting glands of the crayfish *Orconectes limosus*: evidence for the synthesis of 3-dehydroecdysone by *in vitro* synthesis and conversion studies |
| **Martin J. Mitchell, Daniel P. Keogh, John R. Crooks and Stan L. Smith** | 65 | Effects of plant flavonoids and other allelochemicals on insect cytochrome P-450 dependent steroid hydroxylase activity |
| **Mohamed Kabbouh and Huw H. Rees** | 73 | Characterization of ATP:ecdysone 3-acetate 2-phosphotransferase (ecdysone 3-acetate 2-kinase) in *Schistocerca gregaria* larvae |
| **Lucy Cherbas and Peter Cherbas** | 81 | The arthropod initiator: the capsite consensus plays an important role in transcription |
| **William A. Segraves and Christine Woldin** | 91 | The *E75* gene of *Manduca sexta* and comparison with its *Drosophila* homolog |
| **R. J. Hill, W. A. Segraves, D. Choi, P. A. Underwood and E. MacAvoy** | 99 | The reaction with polytene chromosomes of antibodies raised against *Drosophila* E75A protein |
| **Christophe Antoniewski, Monique Laval and Jean-Antoine Lepesant** | 105 | Structural features critical to the activity of an ecdysone receptor binding site |
| **Markus O. Imhof, Sandro Rusconi and Markus Lezzi** | 115 | Cloning of a *Chironomus tentans* cDNA encoding a protein (cEcRH) homologous to the *Drosophila melanogaster* ecdysteroid receptor (dEcR) |
| **L. Sobek, G.-A. Böhm and H. Penzlin** | 125 | Ecdysteroid receptors in last instar larvae of the wax moth *Galleria mellonella* L. |
| **Penelope Terentiou, Marianne Blattmann, Del Bradbrook, Gerd Käuser and Jan Koolman** | 131 | Biological activity and receptor-binding of ecdysteroids in imaginal discs of *Calliphora vicina*: a comparison |
| **S. Tourmente, S. Chapel, D. Dreau, M. E. Drake, A. Bruhat, J. L. Couderc and B. Dastugue** | 137 | Enhancer and silencer elements within the first intron mediate the transcriptional regulation of the $\beta_3$ tubulin gene by 20-hydroxyecdysone in *Drosophila* Kc cells |

| | | |
|---|---|---|
| **A. Krishna Kumaran, Nancy A. Memmel, Cheng Wang and Patrick M. Trewitt** | 145 | Developmental regulation of arylphorin gene activity in fat body cells and gonadal sheath cells of *Galleria mellonella* |
| **Eli Shaaya, Paul D. Shirk, Grazyna Zimowska, Sharon Plotkin, Nicola J. Young, Huw H. Rees and Donald L. Silhacek** | 153 | Declining ecdysteroid levels are temporally correlated with the initiation of vitellogenesis during pharate adult development in the Indianmeal moth, *Plodia interpunctella* |
| **Andreas Fretz, Andrea Lübbert, Ulrich Markmann-Mulisch, Margarethe Spindler-Barth and Klaus-Dieter Spindler** | 159 | Effects of 20-hydroxyecdysone on protein synthesis in the epithelial cell line from *Chironomus tentans* |
| **Colette Strambi, Alain Tirard, Marielle Renucci, Philippe Faure, Pierre Charpin, Roger Augier and Alain Strambi** | 165 | Ecdysone deprivation affects polyamine metabolism in the house cricket *Acheta domesticus* |
| **H. Laufer, G. Wainwright, N. J. Young, A. Sagi, J. S. B. Ahl and H. H. Rees** | 171 | Ecdysteroids and juvenoids in two male morphotypes of *Libinia emarginata* |
| **M. F. Corio-Costet, L. Chapuis, J. F. Mouillet and J. P. Delbecque** | 175 | Sterol and ecdysteroid profiles of *Serratula tinctoria* (L.): plant and cell cultures producing steroids |
| **Karel Sláma, Nail K. Abubakirov, Mark B. Gorovits, Umirzak A. Baltaev and Ziyadilla Saatov** | 181 | Hormonal activity of ecdysteroids from certain Asiatic plants |
| **Christophe Y. Clément, Derek A. Bradbrook, René Lafont and Laurence Dinan** | 187 | Assessment of a microplate-based bioassay for the detection of ecdysteroid-like or antiecdysteroid activities |
| **C. Royer, P. Porcheron, P. Pradelles and B. Mauchamp** | 193 | Development and use of an enzymatic tracer for an enzyme immunoassay of makisterone A |
| **Bernard Mauchamp, Corinne Royer, Lucien Kerhoas and Jacques Einhorn** | 199 | MS/MS analyses of ecdysteroids in developing eggs of *Dysdercus fasciatus* |
| **René Lafont, Jan Koolman and Huw Rees** | 207 | Standardized abbreviations for common ecdysteroids |

## *Vol. 23, No. 2*

| | | |
|---|---|---|
| **Krystyna Grzelak, Barbara Kludkiewicz and Zofia Lassota** | 211 | The effect of 20-hydroxyecdysone on expression of genes coding for low molecular weight silk proteins of *Galleria mellonella* |
| **Paulo E. M. Ribolla, Sirlei Daffre and Antonio G. de Bianchi** | 217 | Cathepsin B and acid phosphatase activities during *Musca domestica* embryogenesis |
| **Yoichi Hayakawa and Yuko Yasuhara** | 225 | Growth-blocking peptide or polydnavirus effects on the last instar larvae of some insect species |
| **D. G. Boucias and J. C. Pendland** | 233 | The galactose binding lectin from the beet armyworm, *Spodoptera exigua*: distribution and site of synthesis |
| **Rosario Maida, Alexander Steinbrecht, Gunde Ziegelberger and Paolo Pelosi** | 243 | The pheromone binding protein of *Bombyx mori:* purification, characterization and immunocytochemical localization |
| **Yang-Ja Park and Ann Marie Fallon** | 255 | Transcripts from a mosquito dihydrofolate reductase gene: evidence for heterogeneity at the 5′ end |
| **Peide Gu, William H. Welch and Gary J. Blomquist** | 263 | Methyl-branched fatty acid biosynthesis in the German cockroach, *Blattella germanica*: kinetic studies comparing a microsomal and soluble fatty acid synthetase |
| **Shu-Mei Dai and Sarjeet S. Gill** | 273 | *In vitro* and *in vivo* proteolysis of the *Bacillus thuringiensis* subsp. *israelensis* CryIVD protein by *Culex quinquefasciatus* larval midgut proteases |
| **Yusuke Kato, Kiyoko Taniai, Hirohiko Hirochika and Minoru Yamakawa** | 285 | Expression and characterization of cDNAs for cecropin B, an antibacterial protein of the silkworm, *Bombyx mori* |

**Peter Willadsen, George A. Riding, Janine Jarmey and Annette Atkins** 291 The nucleotidase of *Boophilus microplus* and its relationship to enzymes from the rat and *Escherichia coli*

**Charlotte E. Borgeson and Gary J. Blomquist** 297 Subcellular location of the $\Delta^{12}$ desaturase rules out bacteriocyte contribution to linoleate biosynthesis in the house cricket and the American cockroach

**Laszló Hiripi and Roger G. H. Downer** 303 Characterization of serotonin binding sites in insect (*Locusta migratoria*) brain

**Teresa Martinez and Diana Wheeler** 309 Identification of two storage hexamers in the ant, *Camponotus festinatus*: accumulation in adult queenless workers

**Announcement** i

## *Vol. 23, No. 3*

**Pensri Whiting, Stanley Sparks and Laurence Dinan** 319 Ecdysteroids during embryogenesis of the house cricket, *Acheta domesticus*: occurrence of novel ecdysteroid conjugates in developing eggs

**D. Blakemore, M. J. Lehane and S. Williams** 331 Cyclic AMP can promote the secretion of digestive enzymes in *Stomoxys calcitrans*

**Xinmei Chen, Zhixiang Wang and Norbert H. Haunerland** 337 Flight muscle fatty acid binding protein synthesis in juvenile and adult forms of the desert locust, *Schistocerca gregaria*

**Somashekarappa Niranjanakumari and Karumathil P. Gopinathan** 345 DNA polymerase-$\beta$ from the pupal ovaries of *Bombyx mori*

**Bernard Delobel, Yvan Rahbé, Christiane Nardon, Josette Guillaud and Paul Nardon** 355 Biochemical and cytological survey of tyrosine storage proteins in Coleoptera: diversity of strategies

**Charles E. Linn Jr and Wendell L. Roelofs** 367 Levels of biogenic amines and peptides in individual corn earworm moths, *Helicoverpa zea*, using high performance liquid chromatography with electrochemical detection

**Paul J. Skiba and Larry L. Jackson** 375 (Z)-10-Heptadecen-2-one and 2-tridecanone biosynthesis from [1-$^{14}$C]acetate by *Drosophila buzzatii*

**Marcel Amichot, Claude Castella, Jean-Baptiste Bergé and David Pauron** 381 Transcription analysis of the *para* gene by *in situ* hybridization and immunological characterization of its expression product in wild-type and mutant strains of *Drosophila*

**J. S. Andersen, S. O. Andersen, P. Højrup and P. Roepstorff** 391 Primary structure of a 14 kDa basic structural protein (Lm-76) from the cuticle of the migratory locust, *Locusta migratoria*

**A. Heddi, F. Lefebvre and P. Nardon** 403 Effect of endocytobiotic bacteria on mitochondrial enzymatic activities in the weevil *Sitophilus oryzae* (Coleoptera: Curculionidae)

**Stephen G. Miller and Donald L. Silhacek** 413 Properties of two hemolymph riboflavin-binding proteins from *Heliothis virescens*

**Charles R. Vossbrinck, Pawel A. Osmulski and Peter G. Debrunner** 421 Characterization of hemoglobin from the backswimmer *Buenoa margaritacea* (Hemiptera: Notonectidae) reveals high electrophoretic heterogeneity

## *Vol. 23, No. 4*

**David H. Petzel, Adrianne K. Parrish, Clyde L. Ogg, Nancy A. Witters, Ralph W. Howard and David W. Stanley-Samuelson** 431 Arachidonic acid and prostaglandin $E_2$ in Malpighian tubules of female yellow fever mosquitoes

**J. F. Koener, F. A. Cariño and R. Feyereisen** 439 The cDNA and deduced protein sequence of house fly NADPH-cytochrome P450 reductase

| | | |
|---|---|---|
| **J. Krieger, H. Gänßle, K. Raming and H. Breer** | 449 | Odorant binding proteins of *Heliothis virescens* |
| **Denise Valle, Juergen Kun, Jutta Linss, Eloi de Souza Garcia and Samuel Goldenberg** | 457 | cDNA cloning and expression of *Rhodnius prolixus* vitellogenin |
| **Laurent Lagadic, André Cuany, Jean-Baptiste Bergé and Michel Echaubard** | 467 | Purification and partial characterization of glutathione S-transferases from insecticide-resistant and lindane-induced susceptible *Spodoptera littoralis* (Boisd.) larvae |
| **Laurent Lagadic and Thierry Cresteil** | 475 | Enhanced *in vitro* metabolism of testosterone by microsomes from insecticide-resistant *Spodoptera littoralis* larvae |
| **Michel Descamps and René Lafont** | 481 | Conversion of different putative ecdysteroid precursors in *Lithobius forficatus* L. (Myriapoda: Chilopoda) |
| **C. P. Robinson, S. Ciccotosto, A. M. Gaal and L. G. Sparrow** | 491 | Purification of cysteine lyase from larvae of the webbing clothes moth, *Tineola bisselliella* |
| **D. J. Chappell and M. Slaytor** | 499 | Uric acid synthesis in freshly collected and laboratory-maintained *Nasutitermes walkeri* Hill |
| **Hazel G. N. Khoo and Kim Ping Wong** | 507 | Sulphate conjugation of serotonin and N-acetylserotonin in the mosquito, *Aedes togoi* |
| **Nobuhiko Asada, Takashi Fukumitsu, Kengo Fujimoto and Ken-ichiro Masuda** | 515 | Activation of prophenoloxidase with 2-propanol and other organic compounds in *Drosophila melanogaster* |
| **Carsten Nøhr and Svend Olav Andersen** | 521 | Cuticular proteins from fifth instar nymphs of the migratory locust, *Locusta migratoria* |
| **Francisco J. A. Lemos, Alberto F. Ribeiro and Walter R. Terra** | 533 | A bacteria-digesting midgut-lysozyme from *Musca domestica* (Diptera) larvae. Purification, properties and secretory mechanism |

## *Vol. 23, No. 5*

| | | |
|---|---|---|
| **J. F. M. Leal and M. Barbancho** | 543 | Aldehyde dehydrogenase (ALDH) activity in *Drosophila melanogaster* adults: evidence for cytosolic localization |
| **James S. Buckner, Paul E. Otto, Samuel M. Newman and George Graf** | 549 | Xanthine dehydrogenase in the fat body of *Manduca sexta*: purification, characterization, subcellular localization and levels during the last larval instar |
| **E. Tomlin, H. McLean and S. Caveney** | 561 | Active accumulation of glutamate and aspartate by insect epidermal cells |
| **T. Schmidt, Y. Choffat, M. Schneider, P. Hunziker, Y. Fuyama and E. Kubli** | 571 | *Drosophila suzukii* contains a peptide homologous to the *Drosophila melanogaster* sex-peptide and functional in both species |
| **S. A. Ahmad and T. L. Hopkins** | 581 | $\beta$-Glucosylation of plant phenolics by phenol $\beta$-glucosyltransferase in larval tissues of the tobacco hornworm, *Manduca sexta* (L.) |
| **Daniela Marchini, Piero C. Giordano, Reinout Amons, Luigi F. Bernini and Romano Dallai** | 591 | Purification and primary structure of Ceratotoxin A and B, two antibacterial peptides from the female reproductive accessory glands of the medfly *Ceratitis capitata* (Insecta: Diptera) |
| **Algimantas P. Valaitis and Diana F. Bowers** | 599 | Purification and properties of the soluble midgut trehalase from the gypsy moth, *Lymantria dispar* |
| **Richard I. Samuels, A. Keith Charnley and Stuart E. Reynolds** | 607 | A cuticle-degrading proteinase from the moulting fluid of the tobacco hornworm, *Manduca sexta* |
| **Richard I. Samuels, A. Keith Charnley and Stuart E. Reynolds** | 615 | An aminopeptidase from the moulting fluid of the tobacco hornworm, *Manduca sexta* |
| **Munna Agarwal, Nacira Bensaadi, Jean-Claude Salvado, Keith Campbell and Claude Mouchès** | 621 | Characterization and genetic organization of full-length copies of a LINE retroposon family dispersed in the genome of *Culex pipiens* mosquitoes |

**S. Sridhara** 631 mRNAs of wing epidermis of the oak silkmoth *Antheraea polyphemus* and other silkmoths during pupal development

**Nancy E. Beckage and Michael R. Kanost** 643 Effects of parasitism by the braconid wasp *Cotesia congregata* on host hemolymph proteins of the tobacco hornworm, *Manduca sexta*

## *Vol. 23, No. 6*

**Per Ivarsson, Fredrik Schlyter and Göran Birgersson** 655 Demonstration of *de novo* pheromone biosynthesis in *Ips duplicatus* (Coleoptera: Scolytidae): inhibition of ipsdienol and *E*-myrcenol production by compactin

**R. Milne and H. Kaplan** 663 Purification and characterization of a trypsin-like digestive enzyme from spruce budworm (*Choristoneura fumiferana*) responsible for the activation of $\delta$-endotoxin from *Bacillus thuringiensis*

**Patricia V. Pietrantonio and Sarjeet S. Gill** 675 Sequence of a 17 kDa vacuolar $H^+$-ATPase proteolipid subunit from insect midgut and Malpighian tubules

**Seppo Turunen** 681 Metabolic pathways in the midgut epithelium of *Pieris brassicae* during carbohydrate and lipid assimilation

**Karl J. Kramer, Lolita Corpuz, Hee K. Choi and Subbaratnam Muthukrishnan** 691 Sequence of a cDNA and expression of the gene encoding epidermal and gut chitinases of *Manduca sexta*

**Dov Borovsky, D. A. Carlson, P. R. Griffin, J. Shabanowitz and D. F. Hunt** 703 Mass spectrometry and characterization of *Aedes aegypti* trypsin modulating oostatic factor (TMOF) and its analogs

**K. S. Lefevere, M. J. Lacey, P. H. Smith and B. Roberts** 713 Identification and quantification of juvenile hormone biosynthesized by larval and adult Australian sheep blowfly *Lucilia cuprina* (Diptera: Calliphoridae)

**Holly J. R. Popham and G. Michael Chippendale** 721 Measurement of the lipophorin titer in the larval hemolymph of the southwestern corn borer, *Diatraea grandiosella*, by ELISA

**Jeffrey G. Scott and Susanna S. T. Lee** 729 Tissue distribution of microsomal cytochrome *P*-450 monooxygenases and their inducibility by phenobarbital in the insecticide resistant LPR strain of house fly, *Musca domestica* L.

**Jianyong Li and Bruce M. Christensen** 739 Involvement of L-tyrosine and phenol oxidase in the tanning of *Aedes aegypti* eggs

**Robert R. Miller Jr, Jonathan W. Yates and Billy W. Geer** 749 Dietary ethanol stimulates the activity of phosphatidylcholine-specific phospholipase D and the formation of phosphatidylethanol in *Drosophila melanogaster* larvae

## *Vol. 23, No. 7*

**I. Boekhoff, E. Seifert, S. Göggerle, M. Lindemann, B.-W. Krüger and H. Breer** 757 Pheromone-induced second-messenger signaling in insect antennae

**Martin F. J. Taylor, David G. Heckel, Thomas M. Brown, Martin E. Kreitman and Bruce Black** 763 Linkage of pyrethroid insecticide resistance to a sodium channel locus in the tobacco budworm

**Christos G. Zervas, Panagiotis G. Katsoris and Vassilis J. Marmaras** 777 Isolation of a 54 kDa tyrosyl-phosphorylated protein from the integument of the medfly *Ceratitis capitata*: possible physiological substrate for integumental phosphatase activity

**Miranda C. Van Heusden** 785 Characterization and identification of a lipoprotein lipase from *Manduca sexta* flight muscle

**H. J. Bestmann, A. B. Attygalle, W. Garbe, F. Kern, V. Martichonok, D. Schäfer, O. Vostrowsky and I. Hasenfuß** 793 Chemical structure and final steps of biosynthesis of the female sex pheromone of *Gastropacha quercifolia* (Lepidoptera: Lasiocampidae)

| | | |
|---|---|---|
| **N. S. Lamango and R. E. Isaac** | 801 | Metabolism of insect neuropeptides: properties of a membrane-bound endopeptidase from heads of *Musca domestica* |
| **Steven A. Reeves and Miles K. Yamanaka** | 809 | Cloning and sequence analysis of the alpha subunit of the cat flea sodium pump |
| **Mário A. C. Silva-Neto and Pedro L. Oliveira** | 815 | Protein phosphorylation in *Rhodnius prolixus* oocytes: identification of a type II casein kinase |
| **Grace Jones, Venkateswar Venkataraman and Maria Manczak** | 825 | Transcriptional regulation of an unusual trypsin-related protein expressed during insect metamorphosis |
| **Minli Zhang and Isao Kubo** | 831 | Metabolic fate of ecdysteroids in larval *Bombyx mori* and *Heliothis virescens* |
| **Miklos Sass, Agnes Kiss and Michael Locke** | 845 | Classes of integument peptides |

## *Vol. 23, No. 8*

| | | |
|---|---|---|
| *Mini-Review*<br>**Liliane Schoofs, Jozef Vanden Broeck and Arnold De Loof** | 859 | The myotropic peptides of *Locusta migratoria*: structures, distribution, functions and receptors |
| **Frank A. Shotkoski and Ann Marie Fallon** | 883 | The mosquito dihydrofolate reductase gene functions as a dominant selectable marker in transfected cells |
| **Heather Cook and Ian Orchard** | 895 | The short term effects of 5,7-dihydroxytryptamine on peripheral serotonin stores in *Rhodnius prolixus* and their long-term recovery |
| **E. G. Abraham, N. Mounier and G. Bosquet** | 905 | Expression of a *Bombyx* cytoplasmic actin gene in cultured *Drosophila* cells: influence of 20-hydroxyecdysone and interference with expression of endogenous cytoplasmic actin genes |
| **Masao Iketani and Isao Morishima** | 913 | Induction of antibacterial protein synthesis by soluble peptidoglycan in isolated fat body from larvae of the silkworm, *Bombyx mori* |
| **Akira Wadano, Yasutaka Takenaka and Motonobu Matumoto** | 919 | 3-Hydroxykynurenine as a radical scavenger in the blowfly, *Aldrichina grahami* |
| **Angela Huth, Konrad Dettner, Christian Frößl and Wilhelm Boland** | 927 | Feeding of xenobiotic $\omega$-phenylalkanoic acids remarkably changes the chemistry and toxicity of the defensive secretion of *Oxytelus sculpturatus* Grav. (Coleoptera: Staphylinidae: Oxytelinae) |
| **A. Blanchetot and R. H. Gooding** | 937 | Genetic analysis by DNA fingerprinting in tsetse fly genomes |
| **Eric Provost, Germaine Riviere, Maurice Roux, E. David Morgan and Anne G. Bagneres** | 945 | Change in the chemical signature of the ant *Leptothorax lichtensteini* Bondroit with time |
| **Moshe Reuveni and Peter E. Dunn** | 959 | Absorption pathways of amino acids in the midgut of *Manduca sexta* larvae |
